The Origins of Strategy: From Military Roots to Business Applications Early Military Strategies and Their Legacy The concept of strategy, in its earliest form, is rooted in military history. Ancient civilizations like the Egyptians, Chinese, and Greeks employed strategic principles to expand their territories and defend their interests. Notable early strategists include Sun Tzu, whose *Art of War* (circa 5th century BC) remains a foundational text, emphasizing deception, flexibility, and understanding the terrain. Key elements from these early military strategies include:

- Deception and Surprise: Using misdirection to gain an advantage.
- Terrain and Environment: Leveraging geographic features for defense or offense.
- Resource Allocation: Efficiently deploying troop and supply resources.
- Flexibility and Adaptability: Changing tactics based on battlefield developments.

These principles laid the groundwork for strategic thinking beyond the battlefield, influencing later military doctrines across cultures and eras.

Transition to Business and Organizational Strategy While military strategy primarily aimed at winning wars, its core principles have been adapted to the corporate and organizational spheres, especially from the 20th century onward. The rise of industrialization and global competition prompted business leaders to think systematically about positioning, resource management, and competitive advantage. Key milestones include:

- Alfred Chandler's *Organizational Strategy* (1960s): Emphasized the importance of structure, management, and long-term planning.
- Michael Porter's *Competitive Strategies* (1980s): Introduced frameworks like the Five Forces model and generic strategies

(cost leadership, differentiation, focus). - Resource-Based View (RBV): Focused on an organization's internal resources and capabilities as sources of sustained competitive advantage. This transition underscores the universality of strategic principles: whether in warfare or commerce, success hinges on careful planning, resource management, and adaptability.
