This mode introduces a layered strategic element, requiring players to balance combat effectiveness with financial stability and political alliances.

Mech Customization

One of the standout features of A Time of War is its extensive mech customization system. Players can modify almost every aspect of their machines, including:

- Weapon loadouts: Choosing from ballistic, missile, energy, or special weapons.
- Armor and structure: Adjusting armor thickness and internal structure for durability.
- Equipment: Adding jump jets, ECM modules, or targeting computers.
- Appearance: Custom skins and decals for aesthetic personalization.

These systems add layers of strategic planning, making each mission part of a broader operational picture.
