History and Evolution of Cloth Diapers and Plastic Pants

Early Diapering Practices

Historically, cloth diapers have been used for centuries across various cultures. These cloth diapers were usually made from natural fibers such as cotton, linen, or wool.

Introduction of Plastic Pants

In the mid-20th century, plastic pants emerged as a revolutionary addition to traditional cloth diapering. Made from waterproof materials like polyethylene or vinyl, plastic pants provided a reliable barrier against leaks, making cloth diapering more practical and less messy. Together, cloth diapers and plastic pants became the standard for diapering in many households.
