Introduction: The Evolution of Netflix's Business Model

Netflix's transformation mirrors the dynamic nature of technology and consumer preferences. Initially founded in 1997 by Reed Hastings and Marc Randolph as a DVD-by-mail service, Netflix's core business model was a subscription-based rental model. However, as internet speeds increased and digital streaming technology matured, Netflix pivoted its strategy, embracing a new business model centered around streaming content directly to consumers. This shift was not merely technological but fundamentally reimagined how content was delivered, consumed, and monetized. Netflix's evolution exemplifies how continuous innovation in business models can sustain competitive advantage and foster industry disruption.
